**1. Stamping:**

a. Versamark and embossing – Heat emboss by rubbing Embossing Buddy over Cherry Cobbler front panel. Stamp sentiment with Versamark on the mid left of front panel, sprinkle with white embossing powder and heat emboss. Rub Embossing Buddy over front panel again, stamp Plant Hope trees with Versamark on the mid right half of front panel, sprinkle with white embossing powder and heat emboss. When the photo is removed from the photo holder, the embossed images will be seen.

**2. Big Shot/Punching (use punch pieces):**

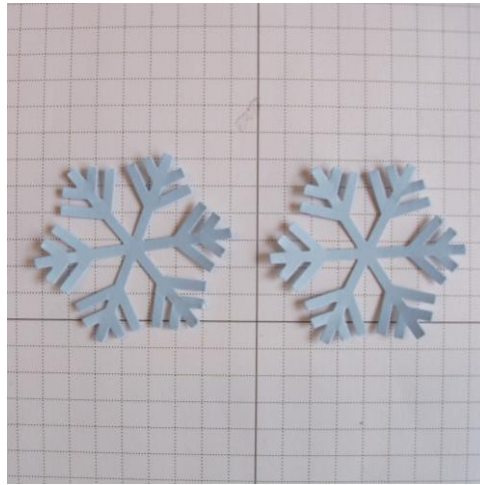

a. Big Shot Top Note die – Center Whisper White photo holder over center of Top Note die, you will be using the negative section for the photo holder.

b. Big Shot Perfect Polka Dots EB folder – Place Whisper White photo holder in folder to emboss.

c. Snowflake – (2) Bashful Blue

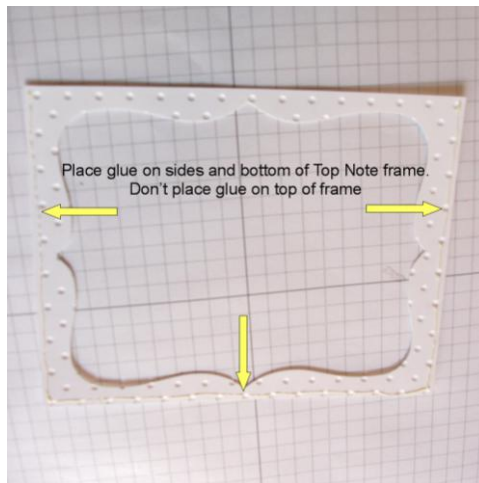

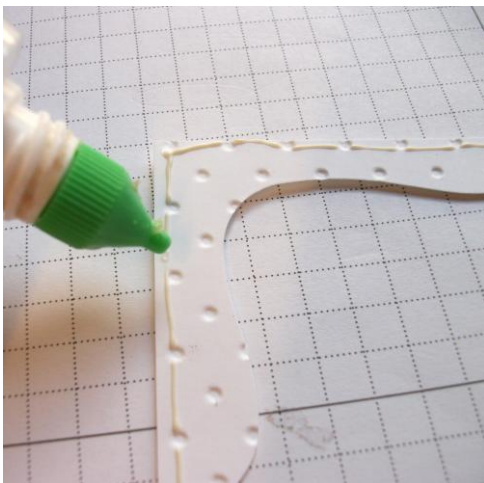

**3. Assemble Card:**

a. Center and Snail Cherry Cobbler front panel to Basic Gray card front. (*Your Cherry Cobbler front panel will include the embossed sentiment and Plant Hope trees, which are not shown here or in the following pictures*)

b. Attach Whisper White photo holder to front of card by applying a thin line of Tombow All-Purpose glue to the backside along the sides and bottom. Center and place photo holder to card front glue side down, making sure that the top of the photo holder is loose. Photo will be placed through the top opening.

c. Attach Snowflakes by placing 2-way glue to the sections of snowflake which touch the outside of the Whisper White photo holder. Don't glue snowflake arms to any section of the Cherry Cobbler panel, otherwise your photo won't be able to slide into the photo holder.

e. Add Jewel-rhinestones to Snowflake centers.
